

OpConnect announces Online Reservation System for Network Members

(Portland, Oregon) Dec 7, 2012- [OpConnect](#), a technology leader within the charging industry, announced today the integration of an [online reservation system](#) available to its network members. OpConnect network members can now reserve a public OpConnect charging station at any time. This feature will ease range anxiety and ensure a station's availability upon a driver's arrival to the station.

"Drivers are worried that they will drive to a station only to find that someone got there just ahead of them and its not available. Our latest innovation is a flexible, easy-to-use feature that we hope will alleviate these anxieties," said OpConnect President, Dexter Turner.

OpConnect members can make reservations using the company's website or mobile app. The reservation system is one feature among many other innovations designed and brought to you by OpConnect's leading-edge team. OpConnect also recently added [mobile payments](#), acceptance of the [Wright Express Fleet cards](#), and social media integration to its growing repertoire of advanced features offered to its network members.
